

实际使用证明

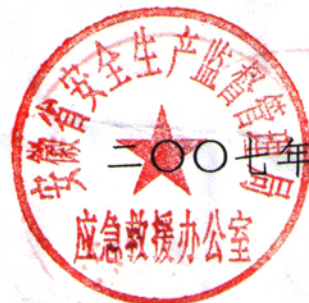

Proof of actual application

2007年12月11日繁昌县阳冲铁矿发生重大坍塌事故，在抢险救援过程中，我单位引进北京中泰通科技发展有限公司的DKL LifeGuardMODEL1.0生命探测仪（美国），对被困人员生命迹象及位置作出判断，为救援工作提供了决策依据，经110多小时奋战，成功救出六名被困矿工。

特此证明。

On Dec 11, 2007, there was a major iron mine collapse incident occurred in Yang Chong iron mine of Fan Chang county. In the process of rescue operation, our organization applied DKL lifeguard Model 1.0 (USA) of Beijing Sinotechon Technology Co. Ltd. to locate the trapped personnel and monitor their life status, which provided sound basis for subsequent decision making onsite. After 110 hours hard and dedication to save these trapped miners, six of them were successfully rescued as result.

Hereby to provide the proof of the actual incident
